

Launching Task Force 6 – Biomethane Industrial Partnership (BIP)

The integration of Ukraine as a supplier of sustainable biomethane

Business Forum on Renewable Gases
| 27th September 2023

Harmen Dekker
CEO, EBA
Member of Governing Board BIP

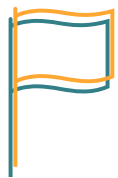

The Biomethane Industrial Partnership

“The Biomethane Industrial Partnership that we launch today will be instrumental to increase the production and use of biomethane across the EU”.

Executive Vice-President Timmermans

“Europe has great potential for producing biomethane, a green alternative for natural gas. In the current energy supply crisis, we cannot allow this potential to go to waste.”

Commissioner Simson

Task Force 1
National biomethane targets, strategies and policies

Task Force 2
Accelerated biomethane project development

Task Force 3
Sustainable potentials for innovative biomass sources

Task Force 4
Cost efficiency of biomethane production and grid connection

Task Force 5
Research, Development and Innovation needs

Task Force 6
The integration of Ukraine as a supplier of sustainable biomethane

Task Force 6: The integration of Ukraine as a supplier of sustainable biomethane

- 3rd February 2023: **EU-Ukraine Summit in Kyiv**
- After adoption of MoU between EU and Ukraine, proposed Task Force 6 on Ukraine
- 27th September 2023: Launch of Task Force 6 during **Business Forum on Renewable Gases**, Vienna

Task Force 6: Objectives

Task Force 6

Identify barriers and streamline solutions

Harmonize certification

Create demand-side actions

Promote a cross-border market

Develop the EU-Ukraine biomethane infrastructure

Etc...

Launching Task Force 6

The integration of Ukraine as a supplier of sustainable biomethane

Business Forum on Renewable Gases
27th of September 2023 – Official launch
