

# **Towards the implementation of**

## **Directive 2009/28/EC**

on the promotion of the use of energy from renewable sources

- Related Studies and the  
Follow-up on the Recommendation of Ministerial Council -

**19<sup>th</sup> PHLG meeting**  
**23 March 2011, Vienna**

## The Study on Implementation of new EU RES Directive

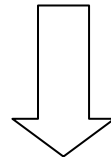

- contracted April 2009, finalised June 2010;
- identified problems with availability of reliable data related to statistics on biomass consumption;
- recognised inconsistencies in data collections and measurement methods;

## Renewable Energy Task Force

- set-up in 2009 as an expert group of PHLG;
- 4 meetings in 2009-2010;
- recommended to launch a biomass study survey;
- propose to the PHLG the consideration of selected articles of Directive 2009/28/EC;

## Objective

- Determine the biomass consumption for energy purposes in the Energy Community based on representative and consistent consumption surveys (2009, 2010)
- Report the share of energy produced from biomass in the gross final energy consumption (2009, 2010)
- Compile 2009 energy balances according with EUROSTAT / IEA formats

The results will contribute to the re-calculation of 2020 RES targets according to the methodology used for the EU MS (Directive 2009/28/EC)

- Consultant CRES (Greece) selected end November 2010
  - Inception Report submitted
  - Presentation of the initial results – 5<sup>th</sup> RE TF, 15 March 2011
- 
- March, April 2011– all surveys to be finalised
  - Draft Final Report to be submitted **by 15 May 2011** to RE TF and Statistical offices/other institutions in charge with energy statistics
  - Agreement on the 2009 energy consumption data to be received **by 23 May 2011**

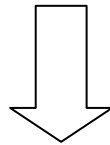

Re-calculation of 2020 RES targets with new data -  
results **by 3 June 2011**

6<sup>th</sup> RE TF meeting – **9 June 2011**

RE TF Conclusions >> to 20<sup>th</sup> PHLG meeting on **29 June**

Re-calculated 2020 RES targets – part of consideration  
on implementation Directive 2009/28/EC at the MC on **6  
October 2011**

- **15 May** – draft results of the Biomass Study
- **23 May** – agreement on the results
- **26 May** – PHLG meeting (tentative)
- **3 June** – calculation of 2020 RES targets
- **9 June** – 6<sup>th</sup> RE TF meeting
- **29 June** – 20<sup>th</sup> PHLG meeting

- **6 October** – 9<sup>th</sup> Ministerial Council Meeting

**ADOPTION OF DIRECTIVE 2009/28/EC**

# RECOMMENDATION TO IMPLEMENT THE DIRECTIVE 2009/28/EC

---

**30 June 2011**

- Assessment potential report + introduce appropriate support measures RES
- Make public standard rules on bearing costs of technical adaptations, such as grid connections and grid reinforcements, improved operation of the grid and rules on the implementation of the grid codes.
- Information on support measures is made available to all relevant actors

**Simplified NREAP - the reporting requirements until 30 June 2011**

---

# RECOMMENDATION TO IMPLEMENT THE DIRECTIVE 2009/28/EC

31 December 2011
<ul style="list-style-type: none"><li>• Overview of national rules concerning the authorisation, certification and licensing procedures of RES plants</li></ul>
<ul style="list-style-type: none"><li>• Review authorisation procedures for grids</li></ul>
<ul style="list-style-type: none"><li>• Identify the rules and procedures that could be simplified + list to Secretariat</li></ul>
<ul style="list-style-type: none"><li>• Plan for transmission and distribution grid infrastructure</li></ul>

**Simplified NREAP – to be completed with the reporting requirements until 31 December 2011**

## **5<sup>th</sup> RE TF documents:**
