**Opening: Introduction and State of Play**

- Welcoming speech and information on the Energy Community activities  
  Tour the table by Distribution System Operators  
  **10:00 – 10:30** Mrs. Karolina Čegir, Gas Expert, EnCS  
  Representatives of DSOs

**Session 1: Focus on Measurement**

- Energy Community Secretariat’s Policy Guidelines on measurement  
  Experience with smart meters  
  Experience with consumption profiles  
  **10:30 – 11:15** Mrs. Karolina Čegir, Gas Expert, EnCS  
  Representatives of DSOs

Discussion  
**11:15 – 11:30**

**Coffee Break**  
**11:30 – 12:00**

**Session 2: DSO Unbundling**

- Unbundling experience exchange and best practices  
  Findings and recommendations  
  **12:00 – 13:00** Mr. Eduard Ionco, Deputy Director Chisinau-gaz  
  Mr. Marin Mladenovski, consultant

Discussion  
**13:00 – 13:15**
## Session 3: Gas Quality Monitoring

- Findings of the EU4Energy Governance project on the monitoring of gas services quality in Ukraine
- New gases in the grid / potential and obstacles

*The EU4Energy Initiative covers all EU support to improve energy supply, security and connectivity, as well as to promote energy efficiency and the use of renewables in the Eastern Partner countries Armenia, Azerbaijan, Belarus, Georgia, Moldova and Ukraine. It does this by financing projects and programmes that help to reform energy markets and to reduce national energy dependence and consumption. Over the longer term, this makes energy supply more reliable, transparent and affordable, thus reducing energy poverty and energy bills for both citizens and the private sector.

**The Energy Community Coordination Platform of Distribution System Operators for gas is established in 2016, with the aim to transfer the knowledge and experience in implementation of Third Energy package, with the focus on gas distribution specificities.
