PERSONAL SKILLS

Mother tongue(s) Russian, Ukrainian

Foreign language(s)

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken interaction	Spoken production	
English	C2	C2	C1	C1	C1
German	A2	A2	A2	A2	A2

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user
 Common European Framework of Reference for Languages - Self-assessment grid

Communication skills My active involvement in the RES projects helped me gain the following communications skills:

- clarity and concision while speaking at various local and international legal events;
- listening to the point of view of other parties involved, friendliness, empathy, and open-mindedness while settling the conflicts in the negotiation process;
- confidence while representing and defending the interests of the producers of renewable energy before the state bodies and courts

Organisational / managerial skills

While participating in construction of one of the largest wind farms in the Eastern Europe – Botievska wind farm with installed capacity of 200 MW (Ukraine) I have gained the variety of managerial skills. In particular, I managed the negotiations, legal support and protection of the project. One of the most important issues of this project was receipt of the compensation for non-adjustment of the feed-in tariff. In the result of the organized work for protection of the project the RES producers have received the compensation.

Being the team head at Sayenko Kharenko, I manage the team’s work and involvement in the projects, as well as coordinate the team’s participation in tender proceedings both as a member of the consortium or a leading advisor in the consortium. Also, if required, I coordinate foreign legal counsel’s participation in the consortia while bidding.

I have also demonstrated organizational skills in setting up the round tables, conferences and online webinars covering various issues of the energy sector.
