MAIN MILESTONES OF CEEGEX

CEEGEX Central Eastern European Gas Exchange Ltd. is the operator of the organized market for the Hungarian VTP - MGP.

CEEGEX offers high quality exchange services with safe, trustworthy and long-term solutions for its partners while utilizing the available infrastructure and providing cooperation opportunities in Central, East and South-East Europe (CESEE).

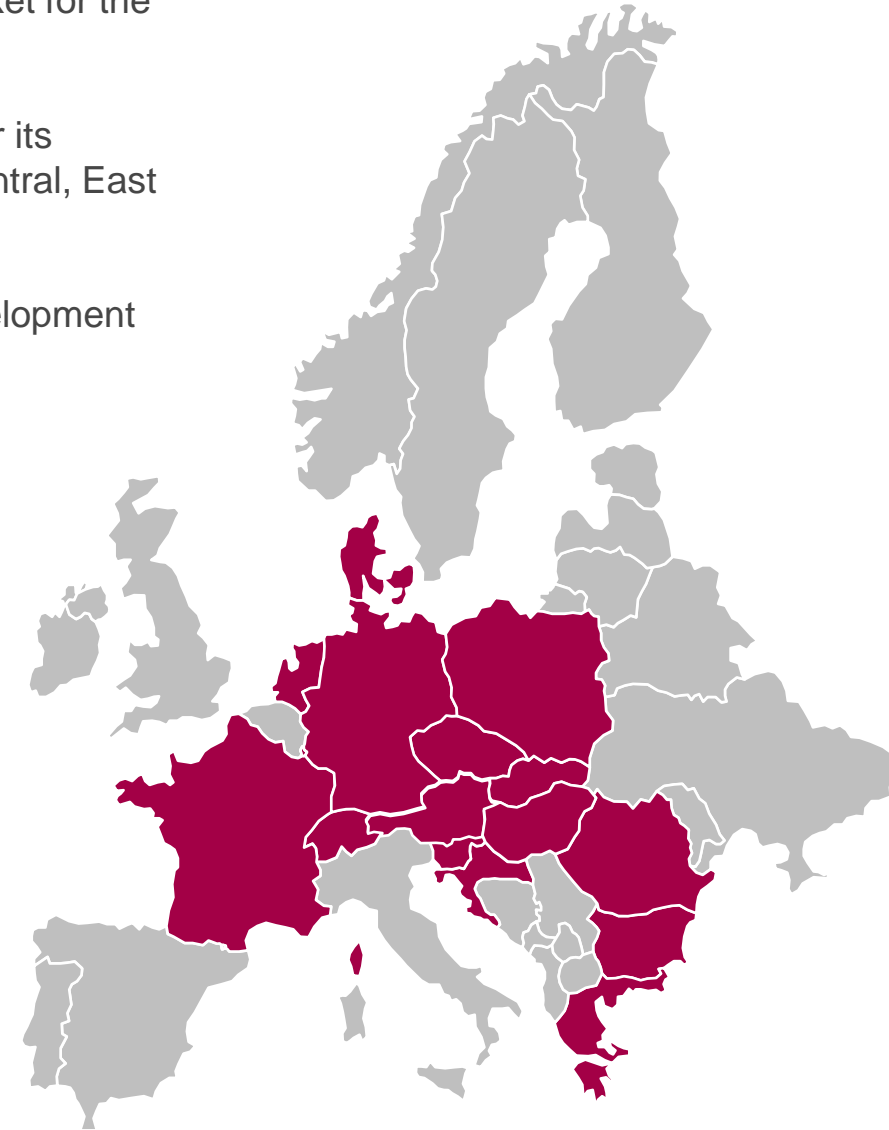

Reclassified by ACER to emerging hub, therefore, our efforts are focused on continuous development and liquidity of the Hungarian and regional gas markets.

ENERGY EFFICIENCY TRADING AT CEEGEX

White certificate exchange started in 2024 February under the scope of the Hungarian Energy Efficiency Obligation Scheme.

The first auction was launched on February 27th, and since then, a total of 5 auctions have been held.

More than 300,000 GJ of HEM has been traded since the exchange's launch.

In the latest auction, the exchange had **93 members**—more than four times the number in the first auction—further ensuring market liquidity.

BEYOND GAS TRADING

Monthly market analysis: At CEEGEX, we put a strong emphasis on building business intelligence by conducting market analyses for ourselves and publishing them to market participants.

Energy Efficiency: CEEGEX has launched a new exchange for trading white certificates in Hungary, reinforcing our commitment to sustainability and energy efficiency.

Data Services: In line with CEEGEX's transparency policy customers can subscribe to gas market data packages available through the SFTP server and read-only access to the trading system (API).

RRM: CEEGEX is a Registered Reporting Mechanism (RRM) for the automated reporting of trading data in compliance with REMIT Art.8. We are continuously enhancing our reporting service in accordance with new specifications and requirements communicated by ACER.

CEEEX-HUPX: The Sales, Finance, and Legal functions have been separated and now operate independently, allowing for greater focus and specialization within each area.
