

EU4Energy

EU4ENERGY SECOND YEAR WORK PROGRAMME FOR MOLDOVA

Area 1 Energy Efficiency

- **Activity 1.3** Support in updating the methodology for calculation of energy performance of buildings
- **Activity 1.4** Support in development of minimum energy performance requirements, including definition of the reference buildings, calculation of the cost-optimal level of energy performance, setting minimum energy performance requirements for technical building systems and energy from RES

Area 2 Electricity Market

- **Activity 2.4** Support in transposition and implementation of EU network codes:
 1. Commission Regulation (EU) 2016/631 of 14 April 2016 establishing a Network Code on requirements for grid connection of generators
 2. Commission Regulation (EU) 2016/1447 of 26 August 2016 establishing a Network Code on requirements for grid connection of high voltage direct current systems and direct current-connected power park modules
 3. Commission Regulation (EU) 2016/1388 of 17 August 2016 establishing a Network Code on Demand Connection
- **Activity 2.5** Support in development of methodology for calculation, approval and application of tariffs for the market operator

Area 3 Gas Market

- **Activity 3.4** Support in development, transposition and implementation of EU network codes:
 1. Commission Regulation (EU) No 2015/703 of 30 April 2015 establishing a Network Code on Interoperability and Data Exchange Rules
 2. Amendment of Annex I to Regulation (EC) No 715/2009 on conditions for access to the natural gas transmission networks

EU4Energy

- **Activity 3.5** Support in development/amendment of existing of legal act to transpose Regulation (EU) 2017/459 of 16 March 2017 establishing a network code on capacity allocation mechanisms in gas transmission systems and repealing Regulation (EU) 984/2013
- **Activity 3.6** Support in development/amendment of existing of legal act to transpose Regulation (EU) 2017/460 of 16 March 2017 establishing a network code on harmonised transmission tariff structures for gas.

Area 7 Improvement of the institutional framework

- **Activity 7** Support in organization of High-level policy talks on gas and electricity markets, energy efficiency and independence of the energy regulator

Area 8 Greater technical, institutional and administrative capacity

- **Activity 8.1** Support in establishing and operation of the Working group/s to follow up on development of secondary legislation related to tasks from the EU4Energy Work Programme in the energy efficiency sector
- **Activity 8.2** Support in establishing and operation of the Working group/s to follow up on development of secondary legislation related to tasks from the EU4Energy Work Programme in the electricity sector
- **Activity 8.3** Support in establishing and operation of the Working group/s to follow up on development of secondary legislation related to tasks from the EU4Energy Work Programme in the gas sector

The EU4Energy Initiative covers all EU support to improve energy supply, security and connectivity, as well as to promote energy efficiency and the use of renewables in the Eastern Partner countries Armenia, Azerbaijan, Belarus, Georgia, Moldova and Ukraine. It does this by financing projects and programmes that help to reform energy markets and to reduce national energy dependence and consumption. Over the longer term, this makes energy supply more reliable, transparent and affordable, thus reducing energy poverty and energy bills for both citizens and the private sector.
