

Webinar series

Integrated national energy and climate progress reports

- 1 Webinar #1: Reporting on progress towards energy efficiency targets (Annexes IV + XVII) - with experts from Croatia and Bulgaria - 2. Oct '25
- 2 Webinar #2: Reporting on integrated policies and measures - Energy efficiency deep dive (Annexes IX-XIV) - With experts from Germany Croatia and Odyssee-MURE - 3. Nov '25
- 3 Webinar #3: Reporting on progress towards renewable energy targets (Annexes II) and additional reporting (Annex XVI) - with experts from Austria and EUROSTAT - 4. Dec '25
- 4 Webinar #4: Reporting on renewable energy targets - Bioenergy deep dive (Annexes II + XVI) - With experts from the European Commission, Latvia and EEA - 22. Jan '26
- 5 Webinar #5: Reporting on policies and measures (Annexes IX, XIII, XIV) - With experts from Ireland and EEA - 19. Feb '26
- 6 **Webinar #6: Reporting on progress towards greenhouse gas emission targets and adaptation (Annexes I + III) - With experts from Poland, Austria, EEA - 24. Mar '26**

Find out about EU Member States' experience in reporting progress under Implementing Regulation (EU) 2022/2299

In 2025, Energy Community Contracting Parties started to report for the first time on the status of implementing their integrated National Energy and Climate Plans by means of integrated national energy and climate progress reports (IPR). The respective reporting obligation is detailed out under Article 17 of Regulation (EU) 2018/1999 and in the 23 Annexes of Implementing Regulation (EU) 2022/2299.

EU Member State practitioners already gained experience with reporting under this obligation during two reporting cycles. In this webinar series, they will share their insights - showcasing the institutional setup for reporting in their jurisdictions and discussing the various sources of data they activated to complete reporting under each of the 23 Annexes.

WEBINAR #6

Reporting on progress towards greenhouse gas emission targets and adaptation (Annexes I + III)

Insights on integrated national energy and climate progress reporting under Implementing Regulation (EU) 2022/2299

Tuesday

24. Mar '26

11:00-12:00 am CET

Online

via zoom

With experts from Poland,
Austria and the European
Environmental Agency

5 min

MONIKA FIGAJ, ENERGY COMMUNITY SECRETARIAT (ENCS)

- Introduces decarbonization related reporting obligations in the Energy Community.

35 min

**BARTŁOMIEJ ZIELIŃSKI AND JULIA WRZAL VEL KOSOWSKA, MINISTRY OF ENERGY OF POLAND,
MARKUS LEITNER AND TERESA DEUBELLI-HWANG, ENVIRONMENTAL AGENCY OF AUSTRIA**

- Introduce the governance/institutional setup for IPRs incl. capacity needs e.g. number/profile of engaged experts, tools used in the respective EU Member States;
- Present relevant data sources and experiences from compiling different sources of information to complete reporting obligations under Implementing Regulation 2022/2299, in particular
 - Annex I - Greenhouse gas emissions and removals (Tables 1-4),
 - Annex III - Adaptation (Table 1-2).

10 min

ANELIYA NIKOLOVA AND OSKAR GUSTAFSSON, BOTH EUROPEAN ENVIRONMENTAL AGENCY (EEA)

- Elaborates on the quality assurance/quality control process for the annexes in focus.

10 min

Exchange among all experts.
