MOLDOVA ENERGY INDEPENDENCE AND RESILIENCE (MEIR)

FIRST YEAR WORK PROGRAMME FOR MOLDOVA

(MAY – DECEMBER 2025)

Area 1 Renewable Energy

MEIR 1.1 Support in modelling and analysis of Moldova's power system for the integration of renewables and energy storage solutions[1]

MEIR 1.2 Support in preparing the legal framework for organizing the auction round for renewable energy generation capacities, and tender's execution

MEIR 1.3 Support in operationalising the electronic registry for guarantees of origin

MEIR 1.4 Support to streamlining the permit granting procedures for renewable energy and establishing a single-point information platform (Law 10/2016 on renewable energy)

Area 2 Electricity Market

MEIR 2.1 Support at introducing the Day Ahead and Intraday markets

MEIR 2.2 Support Moldelectrica in organizing and executing the auction for procurement of balancing capacities (among EXISTING generation units)

MEIR 2.3 Support Moldelectrica in organizing and executing the tender for procurement of NEW balancing capacities

MEIR 2.4 Support ANRE with the elaboration of Methodology for determining compensation coverage following curtailment of electricity produced by renewable energy sources, by presenting EU best practices in this regard

Area 3 Gas Market

MEIR 3.1 Support (upon request of Moldovan authorities) the promotion of the amendment to Law 108/2016 on natural gas (gas storage obligation and market opening related provisions) in the Parliament

MEIR 3.2 Support the ANRE (upon request) in amending the Regulation on PSO imposition with

[1] Activity MEIR 1.1 was launched in the Inception Phase of the Action

the aim to organize a transparent and non-discriminatory procedure for the selection of a universal service supplier of gas

MEIR 3.3 Support ANRE (upon request) in organizing a transparent and non-discriminatory procedure for the selection of a universal service supplier of gas and the Supplier of Last Resort

MEIR 3.4 Review of the gas distribution grid tariff Methodology in line with the Energy Community acquis and best practices

Area 4 Energy Efficiency and Energy Poverty

MEIR 4.1 Support for implementation of the Energy Efficiency First Principle in the Law 139/2018 on energy efficiency of the Republic of Moldova

MEIR 4.2 Support the Ministry with advancement in development of the secondary legal framework required by the Law 282/2023 on energy performance of buildings

MEIR 4.3 Support the Ministry of Energy in operationalizing the energy performance contracting and options for super ESCO mechanism

Area 5 Horizontal/Cross-Cutting Activities

MEIR 5.1 Support the Ministry of Energy in operationalizing task forces (sectoral working groups for communication and coordination of activities among donors) under the Energy Donors Coordination Council

MEIR 5.2 Support the Ministry of Energy in establishing a long-term energy system and policy planning and reporting mechanism

MEIR 5.3 Implementation of communication activities

MEIR 5.4 Support related to the development of the Winter Plan of Measures for Preparedness for the 2025-2026 heating season in line with relevant gas & electricity SoS legislation adopted in 2024

Area 6 Workshops/events/capacity building exercise

MEIR 6 Organisation of workshops/events/capacity building exercises for ministries, regulators, TSOs and other beneficiaries aiming to increase of institutional capacities in Moldova
