# NECP and NECPRS process LATVIA

---

Ministry of Climate and Energy |  
Riga | 22.01.2026.

# **NATIONAL ENERGY AND CLIMATE PLAN**

# PREPARATION OF NECP ANALYTICAL BASIS

*Latvia's national system for data projection is set in Cabinet of Ministers Regulations*

## European Commission:

- Fuel price projections
- EU ETS price projections
- Technology price projections

## Ministry of Economics:

- Marco-economic projections – GDP, value added, population

## Ministry of Climate and Energy:

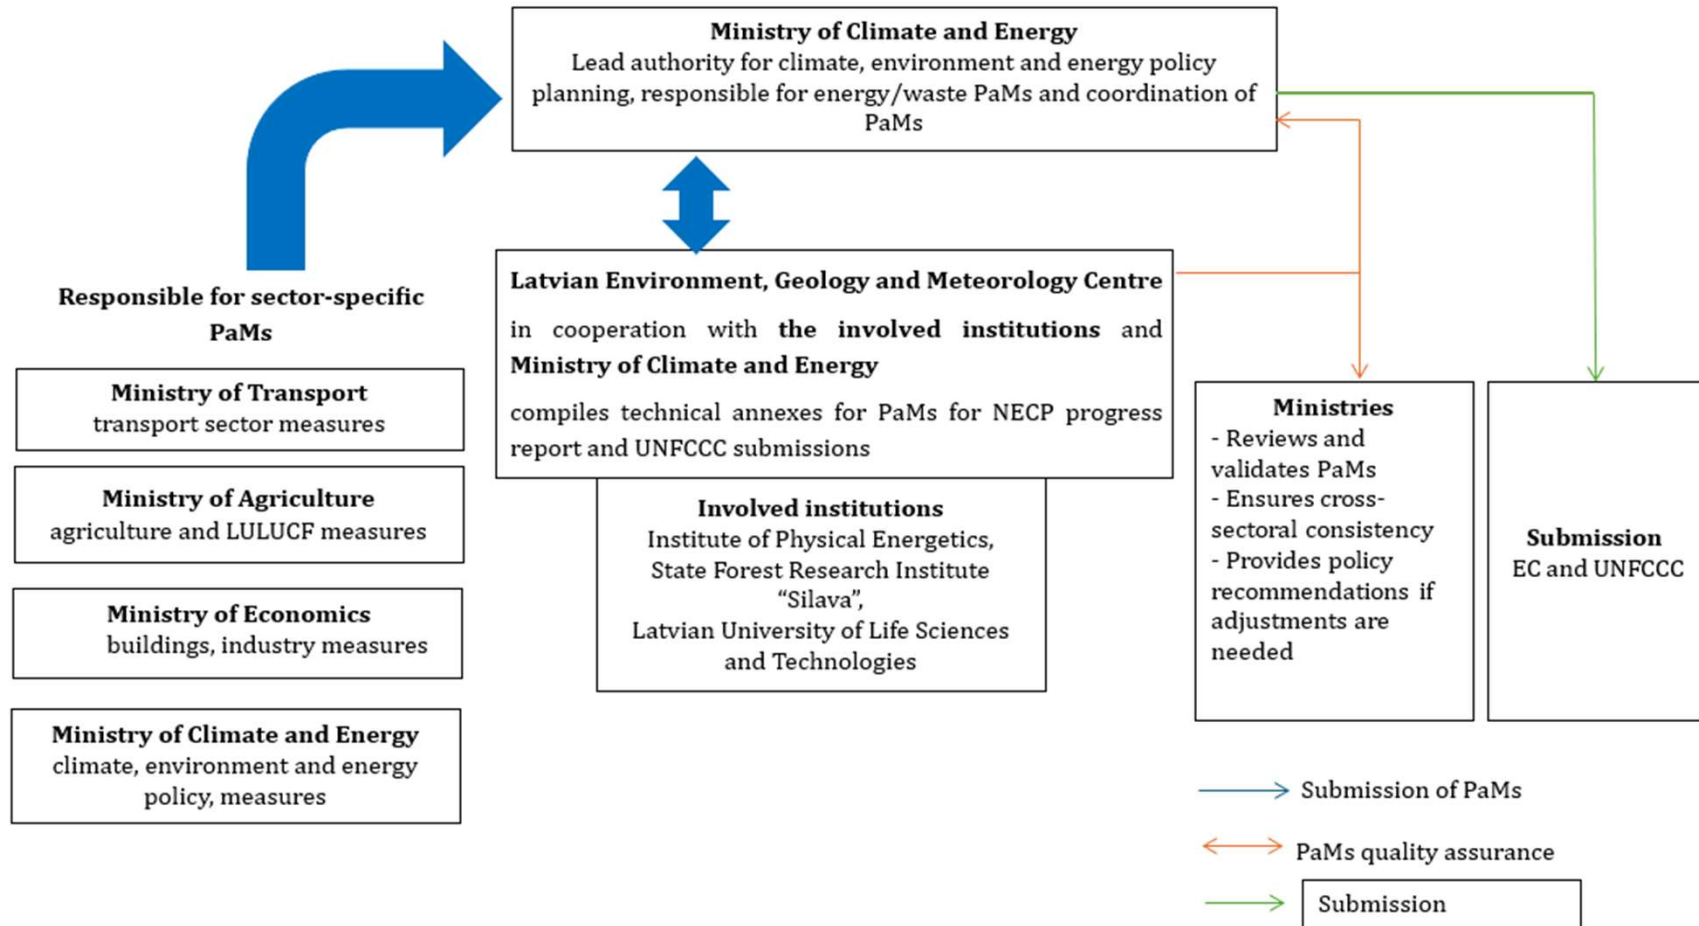

- Energy balance projections up to 2050

## Sectoral ministries (Ministry of Transport (MoT), Ministry of Agriculture (MoA),

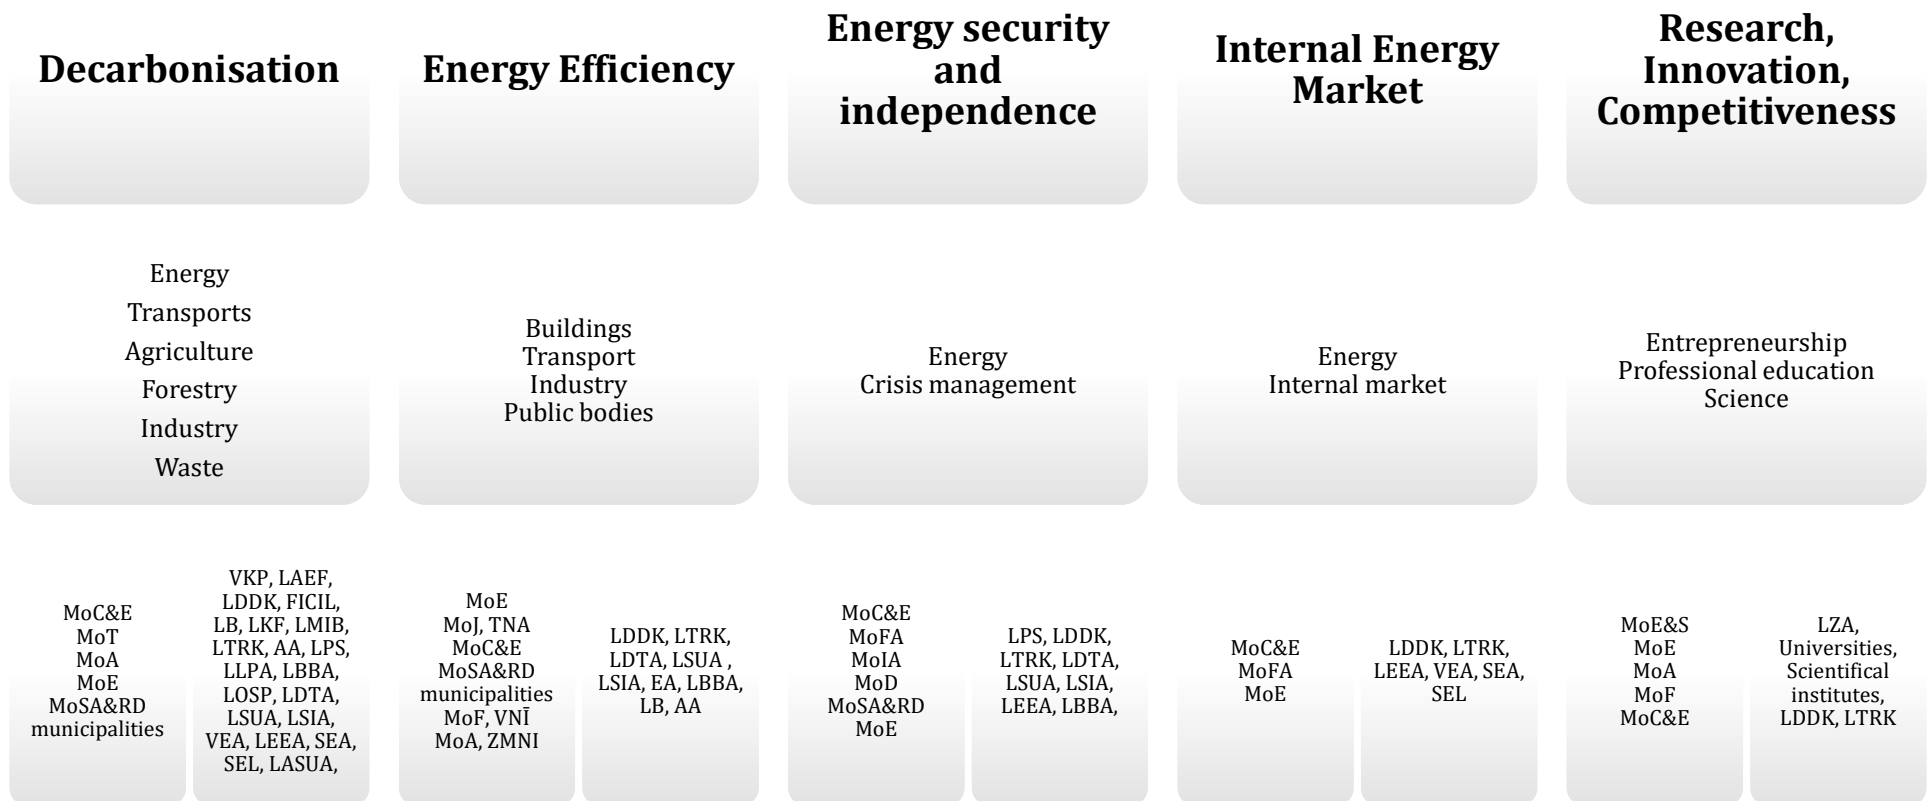

## Ministry of Economics (MoE)):

- Sectoral primary data and PAMs, e.g. building, agriculture, forestry, industry etc.

# NATIONAL SYSTEM FOR PROJECTIONS

# IMPLEMENTATION OF NECP RESPONSIBILITIES\*

\* set in NECP, chapter 2.4 (<https://likumi.lv/ta/id/353615-aktualizetais-nacionalais-energetikas-un-klimata-plans-20212030gadam>)

# NATIONAL ENERGY AND CLIMATE COUNCIL WORKING GROUPS

**Sustainable Mobility Working Group**  
*Coordinated by Ministry of Transport*

**Industry Working Group**  
*Coordinated by the Ministry of Economics*

**Energy Working Group**  
*Coordinated by the Ministry of Climate and Energy*

**Modelling Working Group**  
*Coordinated by the Ministry of Climate and Energy*

**Circular Economy and Waste Management Working Group**  
*Coordinated by the Ministry of Climate and Energy*

**Land Sector (incl. Forestry) and Agriculture Working Group**  
*Coordinated by the Ministry of Agriculture*

# **NATIONAL ENERGY AND CLIMATE PROGRESS REPORTS**

# PREPARATION OF NECPRS LEGISLATIVE FRAMEWORK

## **CLIMATE REPORTING** – Climate Resilience and Economic Sustainability Law

Cabinet of Ministers Regulations:

- National system of GHG inventory including institutional framework
- National system of GHG PAM reporting including institutional framework

**NECPRs preparation is based on GHG inventory and GHG PAMs reporting system**

Ministry of Climate and Energy (MoC&E) coordinates climate reporting:

- GHG inventory reporting
- GHG projection and measures reporting
- Adaptation reporting

## **ENERGY REPORTING** – Law on Energy

**NECPRs preparation is based on the shared competences on the provisions of the Governance Regulation setting cross-ministerial cooperation**

Ministry of Climate and Energy (MoC&E) coordinates energy reporting

# NATIONAL SYSTEM FOR ASSESSMENT OF TARGETS

Climate Resilience and Economic Sustainability Law | Energy Law | Climate Neutrality Strategy by 2050 | National Energy and Climate Plan 2030  
*Defines Climate Change and Energy Policy*

**BTR  
REPORTS  
& NECP PR &  
GHG  
INVENTORIES**

**MINISTRY OF CLIMATE AND ENERGY**

*(in collaboration with other ministries prepare progress report on fulfilment of targets)*

**SECTORAL MINISTRIES**

*To provide mitigation measures for their areas of responsibility, participate in the reconciliation process of the progress report*

**WORKING GROUPS**

*To discuss of policies, measures and projections*

**PROGRESS  
REPORT  
ON  
FULFILMENT  
OF NECP  
TARGETS**

Each year  
till 31  
December

**CABINET OF MINISTERS**

*Evaluate and make a decision on appropriate action in case of non-achievement of targets*

# RENEWABLES – ANNEX II

## TABLES 1., 5., 6

**Table 1**

*Overall RES*

Central Statistical Bureau (CSB)  
*Energybalance (Regulation 1099/2008)*  
*RES Shares*

Companies

*Energy statistics reporting*

State Environmental Service

*Sustainability data (RED2/RED3)*

LEGMC

*EU ETS data (Directive 2003/87/EC)*

State Revenue Service

*excise duty scope (Directive 2003/96/EC)*

**Table 5**

*Transport RES*

CSB  
*Energybalance*  
*RES Shares*

State Environmental Service

*Sustainability data*

State Revenue Service

*excise duty scope*

Road Traffic Safety Service

*mileage for EVs*

**Table 6**

*Biomass reporting*

CSB

*Energybalance*

MoA

*State Forestry Service*

MoC&E

# RENEWABLES – ANNEX XVI

## TABLES 1., 2., 4-7., 9

Table 1 Guarantees of Origin	MoC&E calculate data on the publicly available data of GO issuers Electricity and gas TSO: <ul style="list-style-type: none"> <li>• are mandated by Law to be GOs issuers</li> <li>• operates within ABI</li> <li>• gas TSO issues GOs only for biomethane injected into gas grid</li> </ul>
Table 2 – biomass prices and land use change	data & information preparation: CSB and Ministry of Agriculture
Table 4 – advanced biofuels	fuel suppliers report under Article 25-27 of RED2/RED3 CSB data
Table 5 – impact on biodiversity, water, soil, air	Latvia doesn't report the impacts There is no methodology to estimate the impacts
Table 6 – fraud cases	MoC&E gathers all relevant information and is main reporter
Table 7 – waste-to-energy plants	Companies' data reported within EU ETS
Table 9 – bioenergy	CSB data (energy balances)

# PREPARATION OF NECPRS 2 CYCLES OF REPORTING - ENERGY

## **1st cycle (2023)**

Main reporting by Ministry of Economics:

- Based on publicly available data and information
- Based on data available under different policies or obligations
- Minimum data request letters
- Only mandatory data reporting (limited reporting on  $M_{iav}$  or  $M_{iap}$ )
- The biggest challenge was PAMs reporting and impact assessment

## **2nd cycle (2025)**

Reporting by Ministry of Climate and Energy and Ministry of Economics

- The competences have been set for Governance Regulation obligations and requirements
- The main reporters were set in inter-ministerial dialogue in mutual understanding
- The main reporters / ministries were responsible for data gathering and data quality
- The parallel process with NECP update helped with NECPRs preparation as the same platform was used in information exchange
