Paris Agreement basis:

Article 4, paragraph 12:

NDCs communicated by Parties shall be recorded in a public registry maintained by the secretariat

Article 7, paragraph 12:

The adaptation communications shall be recorded in a public registry maintained by the secretariat

Katowice COP24 decisions:

NDC and Adaptation public registry prototype to be developed by June 2019 (approved in Bonn June 2019)

Public registry to be concluded at COP25 (December 2019)

Until the modalities and procedures of the public NDC registry are finalized, communicated NDCs are registered and available in the interim NDC registry

NDCs covers mitigation measures, but adaptation measures are also allowed in one document (in this case duplication of information with Adaptation Registry)

How the registry should look like:

- constitutes an archive and maintains the hyperlinks of all previously submitted communications as a matter of public record,
- parties, other stakeholders and the public can view, read and download NDCs from the public registry,
- no search function,
- NDCs are submitted every five years to the UNFCCC secretariat, with the next round of NDCs (new or updated) being submitted by 2020 and every 5 years thereafter (e.g. by 2025, 2030), regardless of their respective implementation time frames.
