

EU4Energy

EU4ENERGY SECOND YEAR WORK PROGRAMME

Regional Activities | Armenia

- **RA 1** Regional/country specific meetings/workshops to discuss the process of identification of regional key energy infrastructure projects and ensure training and experience exchange
- **RA 2** Development of methodology for identification of regional key energy infrastructure projects in Armenia, Azerbaijan, Belarus, Georgia and Ukraine on the basis of methodology for PEI
- **RA 3** Launching the process related to identification of regional key energy infrastructure projects (including data collection)

The EU4Energy Initiative covers all EU support to improve energy supply, security and connectivity, as well as to promote energy efficiency and the use of renewables in the Eastern Partner countries Armenia, Azerbaijan, Belarus, Georgia, Moldova and Ukraine. It does this by financing projects and programmes that help to reform energy markets and to reduce national energy dependence and consumption. Over the longer term, this makes energy supply more reliable, transparent and affordable, thus reducing energy poverty and energy bills for both citizens and the private sector.
