 - Activity 8.2.2 Support to the National Energy and Utilities Regulatory Commission (NEURC) in establishing and operation of the Working Group to follow up on the reform of the electricity sector, particularly for finalization of the Retail Market Rules in Ukraine

Regional Activities | Ukraine

- UA RA 1 Regional meetings/workshops to discuss the process of identification of key energy infrastructure projects

The EU4Energy Initiative covers all EU support to improve energy supply, security and connectivity, as well as to promote energy efficiency and the use of renewables in the Eastern Partner countries Armenia, Azerbaijan, Belarus, Georgia, Moldova and Ukraine. It does this by financing projects and programmes that help to reform energy markets and to reduce national energy dependence and consumption. Over the longer term, this makes energy supply more reliable, transparent and affordable, thus reducing energy poverty and energy bills for both citizens and the private sector.
