Integrated national energy and climate progress reports

Energy Community Secretariat

1. *Reporting on progress towards energy efficiency targets (Annexes IV+XVII) with experts from Croatia and Bulgaria - 2. Oct '25*
2. *Reporting on integrated policies and measures - Energy efficiency deep dive (Annexes IX-XIV) with experts from Germany Croatia and Odyssee-MURE - 3. Nov '25*
3. *Reporting on progress towards renewable energy targets (Annexes II) and additional reporting (Annex XVI) with experts from Austria and EUROSTAT - 4. Dec '25*
4. *Reporting on renewable energy targets - Bioenergy deep dive (Annexes II+XVI) with experts from the European Commission, Latvia and the EEA - 22. Jan '26*
5. *Reporting on policies and measures (Annexes IX, XIII, XIV) with experts from Ireland and the EEA - 19. Feb '26*
6. *Reporting on progress towards greenhouse gas emission targets and adaptation (Annexes I+III) with experts from Poland, Austria and the EEA - 24. Mar '26*
7. **Webinar #7: Reporting on progress towards national objectives relating to energy security (Annex V) with experts from Croatia - 3. Nov '26**

Find out about EU Member States' experience in reporting progress under Implementing Regulation (EU) 2022/2299

In 2025, Energy Community Contracting Parties started to report for the first time on the status of implementing their integrated National Energy and Climate Plans by means of integrated national energy and climate progress reports. The respective reporting obligation is detailed out under Article 17 of Regulation (EU) 2018/1999 and in the 23 Annexes of Implementing Regulation (EU) 2022/2299.

EU Member State practitioners already gained experience with reporting under this obligation during two reporting cycles. In this webinar series, they will share their insights - showcasing the institutional setup for reporting in their jurisdictions and discussing the various sources of data they activated to complete reporting under each of the 23 Annexes.

WEBINAR #7

Energy Community Secretariat

Reporting on progress towards national objectives relating to energy security

Insights on integrated national energy and climate progress reporting under Implementing Regulation (EU) 2022/2299

Tuesday
3. Nov '26
14:00-15:00 am CET

Online
via zoom

With reporting practitioners from Croatia

5 min

DAVOR BAJS/ ENERGY COMMUNITY SECRETARIAT

- Introduces relevant reporting obligations in the Energy Community.

25 min

MAJA BOŽIČEVIĆ VRHOVČAK/ ENERGY INSTITUTE HRVOJE POŽAR (EIHP) CROATIA

- Present relevant data sources and experiences from compiling different sets of information to complete reporting obligations under Implementing Regulation 2022/2299, in particular
  - Annex V: Energy security.

15 min

PETER POZSGAI AND ANJA ROSENBERG/ ENERGY COMMUNITY SECRETARIAT

- Present findings of recent assessment of progress in the field of energy security and the internal energy market in the Energy Community.

15 min
