Update on market coupling pilot project
Contracting Party (ME) – Member State (IT)

Vienna
5 November 2019
INTERCONNECTION
CP (ME) - MS (IT)

- Transmission system and interconnections
- Institutional set-up
- Regulatory-legal framework
- Commercial operation od CP(ME) – MS(IT) interconnection
- Conclusions
MONITA

- bipolar HVDC link
- 1 bn€ investment
- Phase 1:
  - 600MW
  - 423 km (coast to coast)
## INSTITUTIONAL SET-UP

### MONTENEGRO
- **CGES**
  - Apr 2018
- **REGAGEN**
  - ACER observer
  - Nov 2017
  - Nord Pool
  - March 2019
- **BELEN**

### ITALY
- **TERNA**
- **ARERA**
- **GME**

### Certification Timeline
- **Certified TSO**
  - March 2019
- **NRA**
  - Nov 2017
- **NEMO**
  - Apr 2018
## MONTENEGRO
- Third Energy Package
- CACM & FCA adaptation on EnC level ongoing
- EnC Treaty reform ongoing
- ECRB Recommendation on NEMO nomination (early implementation activity)
- ECRB Recommendation on CCC (early implementation activity)

## ITALY
- Clean Energy Package
- CACM
  - [Commission Regulation (EU) 1222/2015]
- FCA
  - [Commission Regulation (EU) 2016/1719]

### AIMS project
(Albania-Italy-Montenegro-Serbia)

- TSOs
- PXs
- NRAs (observers)
✓ TSOs informed NRAs about the open issue related to Allocation Platform

✓ Public Consultation

  - Rules for Forward Capacity Allocation ITA-MNE
  - Rules for Daily Capacity Allocation ITA-MNE

1 July – 31 July 2019

“[with JAO as Allocation Platform]...

[with SEE CAO as Allocation Platform]... “
Market participants seem to be in favour of the auction office they are already operating with.

Separate allocation by two different platforms is not desirable.

SEE CAO policy of accepting bank guarantees from lower rated banks (BBB-) may facilitate a wider participation of market players from the Energy Community.
CONCLUSIONS

✓ Transposition of CACM & FCA provides legal certainty

✓ Early implementation and regional initiatives tools for progressing in coupling process

✓ CACM & FCA principles to be respected and applied
Thank you for your attention!
