Energy Strategy of the Energy Community – Chairman's report

Permanent High Level Group meeting
21 June 2012 - Vienna

European Commission, Energy
Internal Market II: Wholesale energy markets
21/06/2012
The Strategy and Projects of Energy Community Interest (PECIs): a 2-step approach

Developing the Strategy via:

- listing the regional objectives and actions of the EnCTy;
- comparing these with the national policy plans;
- summarizing the supply/demand outlook both on national and regional levels;
- delivering a regional analysis;
- establishing the framework for identifying PECIs.
The Strategy and Projects of Energy Community Interest (PECIs): a 2-step approach

Identifying the PECIs via:

- agreeing on the main criteria (input from Strat.)
- agreeing on the weights for each criteria/metrics
- establishing project questionnaire and collecting data from project promoters
- contracting consultant/expert to carry out market analysis and the evaluation of projects (based on TF criteria/metrics)
- proposing tools to foster PECIs
- identifying PECIs
The preparatory project identification process

PECI identification process in EnCTy
– PREPARATORY WORK 2012
