

Risk-preparedness Regulation implementation in the EU

*Energy Community - SoS Coordination Group
11th Meeting of Sub-Group for Electricity
14 December 2021*

Risk preparedness regulation

- ✓ **Ex-post evaluation** of electricity crisis.
- ✓ More systematic **monitoring** (ECG) and reporting on MS' performance by ACER.

- ✓ **Designation of national competent authorities.**
- ✓ Common **methodologies** (developed by ENTSO-E and approved by ACER) for:
 - Identifying electricity crisis scenarios.
 - Assessing short-term adequacy issues.
- ✓ Identification of **regional crisis scenarios.**

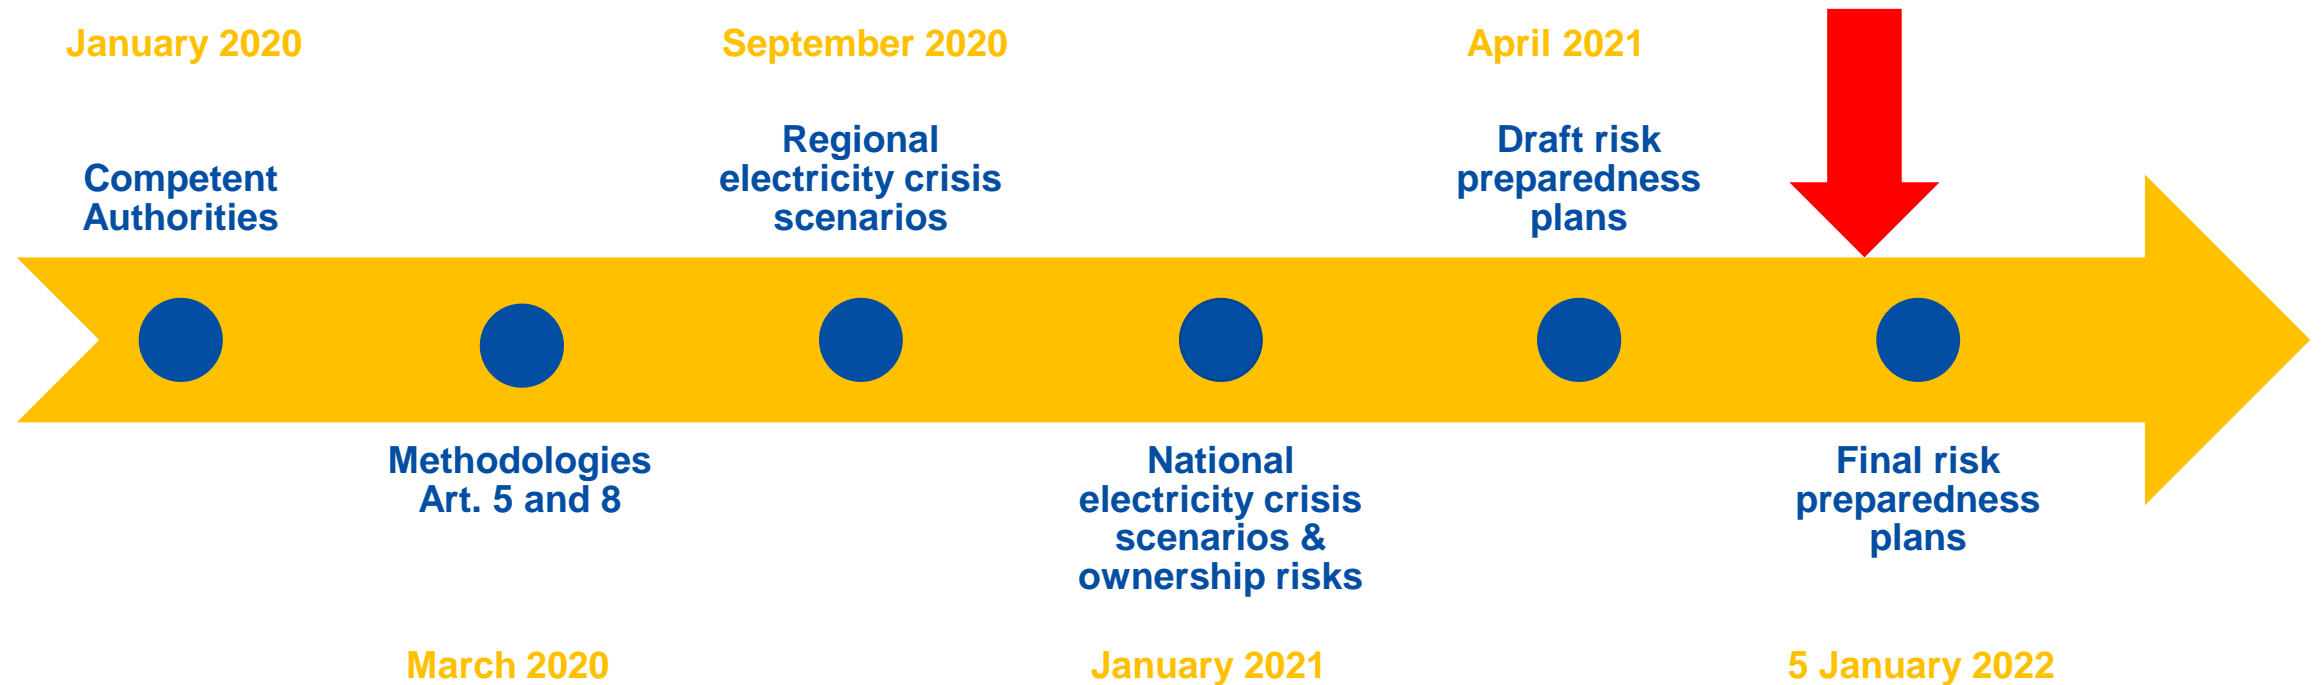

- ✓ Obligation to **inform EC and Member States:**
 - In case of electricity crisis.
 - "Early-warning".
- ✓ Information on the reasons of crisis, measures and need for assistance.

- ✓ **Risk preparedness plans** based on common rules, drawn up by the competent authorities:
 - Shall consist of national measures, regional and, where applicable, bilateral measures.
 - Prior consultation of other MSs and the Electricity Coordination Group (ECG).
 - EC can issue opinions on the plans.
 - Plans have to be published.
- ✓ EC provides **non-binding guidance** regarding the cooperation and assistance mechanism.

- ✓ **Market comes first:** non-market measures can be taken only as a last resort measure.
- ✓ **Cross-border co-operation and assistance.**

Main steps towards the final RPPs

***Non-biding guidance:** Commission Recommendation (EU) 2020/775 of 5 June 2020 on the key elements of the fair compensation and other key elements to be included in the technical, legal and financial arrangements between Member States for the application of the assistance mechanism under Article 15 of Regulation (EU) 2019/941

Next milestones concerning final plans

* Assuming the conditions in Article 13(2) are met

Adaptation to the Energy Community acquis

19th Ministerial Council on 30 November 2021:

- Adaptation of the CEP to the Energy Community acquis, including the regulation on risk preparedness in the electricity sector.
