IMPLEMENTATION OF THE TREATY
STATUS AS OF SEPTEMBER 2007

– THE PLANS FOR IMPLEMENTATION OF THE ACQUIS ON RENEWABLES IN THE CONTRACTING PARTIES –

Energy Community Secretariat, Vienna

17 October 2007, Vienna, Austria

The 6th PHLG Meeting
ARTICLE 20 OF THE TREATY

- The Contracting Parties shall provide to the European Commission within one year of the date of entry into force of the Treaty:

1. a plan to implement Directive 2001/77/EC on the promotion of electricity produced from renewable energy sources in the internal electricity market; and

2. a plan to implement Directive 2003/30/EC on the promotion of the use of biofuels or other renewable fuels for transport.

- The European Commission shall present the plan of each Contracting Party to the Ministerial Council for adoption.
DEVELOPMENT OF THE RES PLANS

PROCEDURE AND RESULT

- The Secretariat conducted consultations on the approach with the Contracting Parties by December 2006;

- The Secretariat provided assistance to the Contracting Parties in preparation of the plans by March 2007;

- Contracting Parties provided the plans to the Commission and the Secretariat by April 2007;

- The Commission and the Secretariat consolidated all plans by June 2007;
REPORT ON THE RES PLANS

OBJECTIVE

EXPLICIT COMPARISON OF THE PLANS

- Contracting Parties elaborated the plans by using a common template, which enables easier and more explicit comparison of the plans;

- The plans were elaborated, being currently under evaluation by the Commission, the Secretariat and consultants;

- The Interim Report has been produced in late June and the Final Report was issued in September 2007 by consultant agency;

- Report addresses in a single framework specific tasks which should be realised by the Contracting Parties, assess the existing and future barriers and propose means for overcoming;
FROM THE INTERIM REPORT TO THE FINAL ONE

- Information was collected from the Contracting Parties and national responsible authorities on energy sector data;

- In particular data were asked on the implementation, completion timeframe, and reference documents/status of the action regarding the implementation of the Directives 2001/77/EC and 2003/30/EC;

- Information was gathered from implemented and ongoing EC research projects within 6FP and other relevant sources of information;

- Based on the collected information the current situation was reviewed, and the plans for RES-E and biofuels Directives were evaluated; the results are pictured in the below stated tables.

- The Final Report of all findings was drafted making recommendations for future actions and plans;

- **Green** indicates all provisions are available.
- **Red** indicates some provisions are missing.
- **Yellow** indicates some provisions are available.
- **Blue** indicates monitor effect of biofuels in diesel blends above 5%.
- **Support measures** row contains red squares indicating no specific support measures are mentioned.
CONCLUSIONS: ACQUIS ON ENVIRONMENT

- Contracting parties have provided the requested plans on the implementation of Directive 2001/77/EC and Directive 2003/30/EC

- Based on the collected information the current situation was reviewed, and the plans for RES-E and biofuels Directives were evaluated; the results are pictured in the below stated tables.

- Final Report of all findings was drafted making recommendations for future actions and plans;

- In the next step(s) it should be analysed whether a harmonised approach in terms of a common time schedule should be envisaged to gain full benefits of the regional approach – similar to the approach on acquis on the energy

- The monitoring process should be elaborated – similar to the monitoring approach on the acquis on energy

- Assistance by the ECS under the guidance of EC should be agreed on
