

EU4Energy

## EU4ENERGY SECOND YEAR WORK PROGRAMME FOR GEORGIA

### Area 1 Energy Efficiency

- **Activity 1.3** Support in development of a national calculation methodology for energy performance of buildings with national annexes (default input values) - National Standard
- **Activity 1.4** Support in development and adoption process of relevant supporting CEN standards (within the national calculation methodology)
- **Activity 1.5** Support in development of Regulation on Energy Performance Certification of Buildings, incl. national values for each class (A, B, C, etc.)

### Area 2 Electricity Market

- **Activity 2.1.13** Support in drafting Market Rules (DAM, IDM, balancing rules, imbalances settlement, ancillary services procurement)

### Area 3 Gas Market

- **Activity 3.2** Support in development of Natural Gas Market Rules
- **Activity 3.3** Support in development of Natural Gas Transmission Tariff Methodologies
- **Activity 3.4** Support in development of Natural Gas Storage Tariff Methodologies

### Area 7 Improvement of the institutional framework

- **Activity 7.1** Support in organization of High-level policy talks on gas and electricity markets, energy efficiency and independence of the energy regulator

EU4Energy

## Area 8 Greater technical, institutional and administrative capacity

- **Activity 8.1** Support in establishing and operation of the Working group/s to follow up on development of secondary legislation related to tasks from the EU4Energy Work Programme in the energy efficiency sector
- **Activity 8.2** Support in establishing and operation of the Working group/s to follow up on development of secondary legislation related to tasks from the EU4Energy Work Programme in the electricity sector
- **Activity 8.2.1** Capacity Building for ESCO on setting and operation of electricity market operator under the Third Energy Package
- **Activity 8.3** Support in establishing and operation of the Working group/s to follow up on development of secondary legislation related to tasks from the EU4Energy Work Programme in the gas sector

## Regional Activities

- **RA 1** Regional/country specific meetings/workshops to discuss the process of identification of regional key energy infrastructure projects and ensure training and experience exchange
- **RA 2** Development of methodology for identification of regional key energy infrastructure projects in Armenia, Azerbaijan, Belarus, Georgia and Ukraine on the basis of methodology for PECI
- **RA 3** Launching the process related to identification of regional key energy infrastructure projects (including data collection)

---

The EU4Energy Initiative covers all EU support to improve energy supply, security and connectivity, as well as to promote energy efficiency and the use of renewables in the Eastern Partner countries Armenia, Azerbaijan, Belarus, Georgia, Moldova and Ukraine. It does this by financing projects and programmes that help to reform energy markets and to reduce national energy dependence and consumption. Over the longer term, this makes energy supply more reliable, transparent and affordable, thus reducing energy poverty and energy bills for both citizens and the private sector.
